

TAX INTERNSHIP OPPORTUNITY – Barbara J. Aue, CPA (Announced Winter 2008)

Hi, Coby & Bob,

I'm hiring for tax season with the opportunity for someone to continue through the summer and do a second year. I work around their class, midterm, & exam schedules. The objectives are to (1) get the job done here and (2) teach them practical tax applications. The objective is *not* to compromise their academic standing or their performance in their classes. Obviously, it's a paid position.

I am open to both juniors & seniors. Prefer that they have a tax class already, but I've had several with no tax background who were great! It's really nice to have someone with audit or in audit; they have a better handle on how to think & reason through real-life problems than the individuals who have only done problem sets for homework & exams. In other words, they can derive the numbers that were given in the problem sets from the actual paperwork and are less intimidated by the sheer volume of paper & data given to us for tax returns.

My overhead from a few years back said:

Needed: interns for tax practice. Prefer juniors or seniors in accounting who want practical experience. Tax class a plus. Pay is dependent on background and/or experience. Please call or e-mail Barbara J Aue, CPA, 6156 Barrington Dr., Goleta, CA 93117 805-692-9364 baue@silcom.com

I'd love it if you'd let some of the students know about this. It's still a professional (not clerical) job with a real opportunity to learn.

Thanks!

Barbara
