Before each lecture, you should print the applicable PowerPoint slides and handouts. The slides are available on the text web site at <http://www.wiley.com/college/kieso>.

CHAPTER SOLUTIONS:

Solutions for selected questions at the back of each chapter in the textbook are available electronically on the class web site at - <http://econ.ucsb.edu/~harmon>. The username and password to access the solutions will be given out in lecture. For security reasons, the password will not be distributed through e-mail. It is up to each student to determine to what extent these problems should be studied to achieve a complete comprehension of the material. I recommend you do as many as possible.

EXAMS:

The format of the exams may include true/false, multiple-choice, short-answer, exercise or problem type questions. You should pay close attention to the topics covered in lecture, section, and homework assignments. Use your textbook to reinforce topics covered in lecture. There are no practice exams available for study.

For the midterm and final you will need the following:

- Scantron (small green)
- Pencil for scantron. Pencil or pen for other questions.

When your exams are returned you will have the opportunity in section to compare your answers with the solution to confirm that your exam was scored correctly.

EXTRA CREDIT:

Periodically throughout the quarter you may work in-groups to complete in-class exercises for extra-credit. There is no make-up for extra-credit missed.
