

School voucher systems

What do we know?

1. Urban Catholic schools have
 - a. Higher test scores
 - b. Higher graduation rates
 - c. Higher college entrance rates
 - d. The above are particularly true inner city minority groups
2. There is little evidence that secular suburban private schools have a positive impact on student outcomes.

Vouchers

1. How do they work?
2. Do vouchers create competition across schools?
3. Should we expect all students to gain from vouchers?
4. How do they change the allocation of teachers across schools?
5. How do they change the sorting of students across schools?
6. The role of peer groups.
7. Do vouchers targeted to disadvantaged students work better?
